#### 59mm Tall Height

### 38mm Wide

#### Hub 2 Piece Tiger Hub, Black Back

#### Urethane

Width

Neothane - Most balanced formula on the market. Superb mix of grip, speed and controlled stopping. Designed to produce screech and chatter on all surfaces.

#### Benefits

**Excellent Burst** Easy Transitions Great for All Stops

#### Best for

Skaters looking for quicker footwork, the most precise transitions, best burst and the most agility. Precise, crisp, and aggressive feel on edge.

# Presto 62

#### 62mm Tall

38mm Wide

#### 2 Piece Tiger Hub, White Back

Neothane - Most balanced formula on the market. Superb mix of grip, speed and controlled stopping. Designed to produce screech and chatter on all surfaces.

### High Speed Easy Transitions

Easier Ride

### Skaters looking for more speed without sacrificing quick transitions or agility. More urethane gives a less aggressive ride, while still allowing for predictable stopping.

# Presto Wide

#### 62mm Tall

#### 44mm Wide

#### 2 Piece Tiger Hub, White Back

Neothane - Most balanced formula on the market. Superb mix of grip, speed and controlled stopping. Designed to produce screech and chatter on all surfaces.

## Most Stability

Reduce Unintentional Turning Snappy Edge

### Skaters looking for the most stability, deeper dig, most control and most speed. Thick lip provides punchy edge, added width offers stability.
