INTRODUCTION

ETHOS

Skateboarding, snowboarding, and surfing have enriched our lives. Loaded's primary mission is to share that stoke and to do what we can to help them expand and evolve.

INDUSTRY

Our current priority is to grow the longboard community. We view all other longboard companies as friends and partners who are collectively growing skateboarding. We don't have any intention of fighting over market share but rather look to innovate, inspire, and grow longboarding for the good of all.

DEALERS

The specialty skate/surf/snow shops and distributors are the heart and soul of board-riding culture. To that end, we work with the best partners worldwide and are committed to supporting these shops and distributors in order to ensure their long-term success.

COMMUNITY

Over the past 20 years, longboarding has touched many people. The current community is vibrant, diverse, global, and inclusive. We are proud of this and committed to helping it flourish.

HOW WE KEEP IT ALL TOGETHER

1 Gallon of Entropy Resin Saves

85 servings of water* (1.6 fl.oz.)

1,300 smartphone charges of energy*

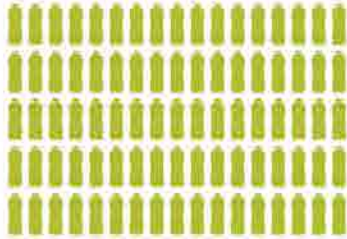

10 miles of car pollution*

*over industry standard manufacturing processes

BOLSA II

BOLSA II | DO-IT-ALL DOUBLE-KICK.

The Bolsa II delivers versatile performance for street, longboard, or surfskate. Its wide, comfortable deck, subtle yet complex contours, and functional kicktails provide control, pop, and ample wheel clearance for any ride.

Available in three fine-tuned setups:

All Terrain / Pump Track: Paris 165mm 50° and 65mm Orangatang Fat Free Wheels.

Surfskate: Carver CX or Carver C7 Trucks, Orangatang bushings and Orangatang Love Handle wheels

INTRODUCING

TANGENT

Easily ride longer distances, commute to work or class, or just enjoy our lowest and most stable double-drop bracket board for cruising at speed.

Expanding on the Fathom and the Zee Bracket system, the Loaded Tangent is here to welcome riders of all heights and sizes to the most comfortable ride of their lives. Innovative new basalt composite construction provides a longer and more stable bracket platform while staying light and durable. With its symmetrical shape, smooth ride, and ergonomic platform, the Loaded Tangent is here to commute, traverse, and connect the dots (in whatever path you choose).

EQUIPPED WITH THE LOADED

BASALT

FATHOM

The longboard that blurs the boundaries of what a skateboard can be.

The Fathom is one of the easiest boards to ride in the world and a ton of fun. Built around the new Loaded Zee Bracket truck mounting system, a proprietary composite bracket designed exclusively for Loaded by our friends at G/Bomb. With large wheels and a low ride height, the Fathom reimagines soulful commuting and urban exploration.

Length: 33" / 83.8 cm (complete), 23" / 58.4 cm (deck)
Width: 9.25" / 23.5 cm

SYMTAIL

Staying true to Loaded's foundational passion for carving and pumping in a lively flex-camber profile, the Symtail also empowers riders to explore freestyle and dancing maneuvers with its symmetrical shape and nose and tail kicks. It's a classic concept for a contemporary carver looking to pump and flow through parking garages, city streets, back roads, and anywhere in between.

Length: 39.5" / 100 cm
Width: 8.75" / 22.2 cm
Wheelbase: 27" / 68.6 cm
Profile: camber
Weight: 2.7 lbs / 1.2 kg

Paris 165 mm 50° Trucks,
70mm 4President Wheels, Jehu V2
Bearings, and Loaded Hardware

Compact and comfy, the Loaded Chinchiller is a carving and pumping board designed for maximum fun. Mild rocker and concave, subtle flex, and easy handling make it accessible and intuitive, while the symmetrical shape and mellow kicks offer the versatility to add a bit of freestyle and freeride spice to your daily ride.

Length: 34" / 86.4 cm
 Width: 8.5" / 21.6 cm
 Wheelbase: 21" / 53.3 cm
 Profile: rocker
 Flex: subtle
 Weight: 3.1 lb / 1.4 kg

Trucks: Paris 150mm 50°
 Wheels: 65mm Love Handles
 Bearings: Jehu V2
 Hardware: Loaded 1" Buttonhead

DISTANCE | FREESTYLE

MADE IN CALIFORNIA

TARAB II

Length: 47" / 119 cm
Width: 9.5" / 24 cm
Wheelbase: 31.25-33.25" / 79.4-81.5 cm
Profile: rocker, CNC wheel wells
Weight (deck): 5 lbs / 2.3 kgs

Flex 1: 140-270 lbs+ / 63-123+ kgs
Flex 2: 80-190+ lbs / 36-86+ kgs

The Tarab is designed to push the boundaries of modern longboard dancing. We launched our first Dancer in 2008, followed by the Bhangra in 2010. The Tarab builds on that history. Lightweight, durable, and technical, the Tarab elevates the level of longboard dancing and modern freestyle.

MATA HARI

Length: 44.5" / 113 cm
Width: 9.25" / 23.5 cm
Wheelbase: 27.25-29.25" / 69.2-74.3 cm
Profile: rocker
Weight (deck): 4.6 lbs / 2.1 kgs

Flex: ONE TO RULE THEM ALL
(varies by wheelbase)

The Mata Hari embraces a progressive and rapidly evolving new era of longboard dancing and freestyle. Compact dimensions, lightweight construction, poppy kicktails, and a range of wheelbase options make the Mata Hari our most technically adept board for those who live to explore and challenge what is possible on a dancing skateboard.

DANCING | FREESTYLE

MADE IN CALIFORNIA

TARAB II

Length: 47" / 119 cm
Width: 9.5" / 24 cm
Wheelbase: 31.25-33.25" / 79.4-81.5 cm
Profile: rocker, CNC wheel wells
Weight (deck): 5 lbs / 2.3 kgs

Flex 1: 140-270 lbs+ / 63-123+ kgs
Flex 2: 80-190+ lbs / 36-86+ kgs

The Tarab is designed to push the boundaries of modern longboard dancing. We launched our first Dancer in 2008, followed by the Bhangra in 2010. The Tarab builds on that history. Lightweight, durable, and technical, the Tarab elevates the level of longboard dancing and modern freestyle.

Length: 44.5" / 113 cm
Width: 9.25" / 23.5 cm
Wheelbase: 27.25-29.25" / 69.2-74.3 cm
Profile: rocker
Weight (deck): 4.6 lbs / 2.1 kgs

Flex: ONE TO RULE THEM ALL
(varies by wheelbase)

The Mata Hari embraces a progressive and rapidly evolving new era of longboard dancing and freestyle. Compact dimensions, lightweight construction, poppy kicktails, and a range of wheelbase options make the Mata Hari our most technically adept board for those who live to explore and challenge what is possible on a dancing skateboard.

CARVING | PUMPING

MADE IN CALIFORNIA

ICARUS

Length: 38.4" / 97.5 cm
Width: 8.6" / 22 cm
Wheelbase: 28.25" / 71.76 cm
Profile: camber, wheel flares
Weight (deck): 2.9 lbs / 1.3 kgs

Flex 1: 170-270+ lbs / 75-115+ kgs
Flex 2: 75-200+ lbs / 35-90+ kgs

The carving board, reimagined. Combining wheel flares, cork bottom sheet, a balanced flex pattern, and novel manufacturing, the Icarus longboard is the pinnacle of our search for the ultimate soulful carving experience. With its dynamic concave, the Icarus provides structural integrity in the neck and responsive flex towards the center.

TAN TIEN

Length: 39" / 99 cm
Width: 8.75" / 22.3 cm
Wheelbase: 27" / 68.6 cm
Profile: camber, drop-thru
Weight (deck): 3.1-3.5 lbs / 1.4-1.6 kgs

Flex 1: 170-270+ lbs / 75-123+ kgs
Flex 2: 110-210+ lbs / 59-95+ kgs

A flexible deck, drop-through truck mounts, and usable kicks allow the Tan Tien to pack a lot into a relatively small package. The complex contours create a super responsive board that allows for increased confidence when leaning into turns, popping tricks, and powering through slides.

DERVISH SAMA

Length: 42.8" / 109 cm
Width: 9" / 22.9 cm
Wheelbase: 31.5" / 80 cm
Profile: camber, drop-thru
Weight (deck): 3.0-3.6 lbs / 1.4-1.6 kgs

Flex 1: 170-270+ lbs / 75-122+ kgs
Flex 2: 90-185+ / 40-84 kgs

Designed as an intuitive carving and pumping board, the Dervish Sama longboard is low and easy to ride for both the first-time skater looking to cruise around town and the experienced rider seeking a soulful, snowboard-inspired ride and the ability to explore longboard dancing and freestyle.

VANGUARD

Length: 38" & 42" / 98 & 107 cm
Width: 9.5" / 24 cm
Wheelbase: 31.25-33.25" / 79.4-81.5 cm
Profile: rocker, CNC wheel wells
Weight (deck): 5 lbs / 2.3 kgs

Flex 1: 175-230+ lbs / 80-105+ kgs
Flex 2: 150-210+ lbs / 68-95+ kgs
Flex 3: 140-200+ lbs / 64-90 kgs
Flex 4: 90-170+ lbs / 40-77+ kgs

The Vanguard longboard, brings lightweight snowboard-inspired construction and performance to the pavement. Camber, sidecuts, and high-energy flex allow for responsive carving, pumping, and commuting. The Vanguard has stayed in our lineup since 2002 because this classic never goes out of style.

MINIS | COMMUTERS

MADE IN CALIFORNIA

COYOTE

Length: 30.75" / 78.1 cm
Width: 8.375" / 21.3 cm
Wheelbase: 17.5" / 44.5 cm
Profile: rocker, wheel flares
Weight (deck): 2.8 lbs / 1.3 kg

Flex: Just the one.

A lightweight, compact, locker-friendly city slasher that's perfect for freeride, freestyle, and cruising the streets (not to mention easy on the wallet). As part of our Artist Series, the Coyote showcases limited-edition graphics by creators we love. Howl at the moon!

BALLONA

Length: 27.75" / 70.5 cm
Width: 9" / 22.9 cm
Wheelbase: 14.75-16" / 37.5-40.6 cm
Profile: rocker, spoon concave
Weight (deck): 2.6 lbs / 1.2 kg

Flex: Solid and dependable.

Agile, compact, and light, the Loaded Ballona elevates the minicruiser experience. Meticulously sculpted curvatures result in a unique mini "longboard" with tuned steering and responsive handling. Perfect for urban commuting, people slalom, driveway slashing, pump tracks, and skatepark flow. Small in stature, colossal in character.

BOLSA

Length: 31" / 78.75 cm
Width: 9.4" / 24 cm
Wheelbase: 16 & 17" / 40 & 43 cm
Profile: rocker, wheel flares
Weight (deck): 3 lbs / 1.35 kg

Flex: Mondo strongo dude.

The epitome of flow has hit the pavement. Compact, comfortable, and agile, the Bolsa deck is Loaded's spin on the stellar CX and C7 truck systems by Carver Skateboards. Comes with Orangatang wheels and bushings for a premium hard-carving surfskate experience.

DOWNHILL | FREERIDE

MADE IN CALIFORNIA

OMAKASE

Length: 33.5" / 85.1 cm
Width: 10" / 25.4 cm
Wheelbase: 20.75-22" / 57.7-55.8 cm
Profile: rocker, wheel flares
Weight (deck): 4.0 lbs / 1.8 kg

Flex : NOT EVEN A LITTLE

In matters of taste and experience, deferring to another's curation can be a radical act of choice. The Omakase stands on its own as a highly user-friendly analog board. Short, wide, stable, and nimble, the Omakase is a palate-pleasing performer for cruising, commuting, freeride, and freestyle longboarding alike.

BASALT TESSERACT

Length: 39" / 99 cm
Width: 9.5" / 24 cm
Wheelbase: 24.5-33.25" / 62.2-66 cm
Profile: rocker with flared wheel wells
Weight (deck): 4.5 lbs / 2.0 kgs

Flex: THERE CAN ONLY BE ONE

The Basalt Tesseract integrates dual kicktails, rocker, wheel well flares, widened W-concave, and multiple wheelbase options into a lightweight package designed for hilly descents, snappy slides, lofty ollies, techy manual combos, and cross-steps galore. With a mellow flex, the Basalt Tesseract is perfect for freeride and freestyle alike.

THE STRONGEST BOLTS IN THE WORLD. PERIOD.

BUTTON HEAD HARDWARE

Available sizes: 1", 1.25", 1.5" (Hex key included)

These button head bolts integrate the washer into the bolt itself in order to reduce the height of the bolt heads while still distributing load pressure.

COUNTERSUNK HARDWARE

Available sizes: 1", 1.25" (Hex key included)

Got that sinking feeling again? We'll only make it worse. We've got little bumps (debossed or embossed, we're not sure which is which) on top to further stick you to your deck. Guaranteed to smell like grease.

WE'RE ALL PINK ON THE INSIDE.

JEHUNION BEARINGS

The new Loaded Jehunion Bearings (version 2 of our original Jehu bearings) feature extended inner raceways to eliminate the need for separate spacers and speed rings. Crank them all the way down and keep your setup tight.

- Rubberized steel shields for durability and ease of maintenance
- Highest-grade chromium steel
- Interior step ring to maintain constant lubrication
- Developed and tested for the speed, durability, and the rigors of performance longboarding
- Bearings made in Taiwan using Japanese grease and lots of love.

orangatang

MADE IN CALIFORNIA

DAD BOD

ULTIMATE FATHER FIGURE

The biggest and baddest of the Orangatang line up. Combining impeccable roll speed, immunity to debris and cracks, and asymmetrical lips to provide all the right characteristics in the all the right places. They fear no man.

Diameter:	105mm	Core:	Trypo Core
Width:	62mm	Formula:	Happy Thane
Style:	Round lips, smooth skin	Weight:	428g
Bearing Seat:	Offset	Duros:	80a

MADE IN CALIFORNIA

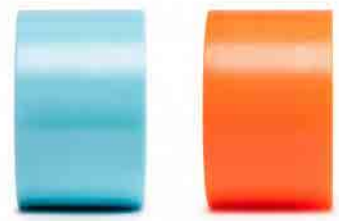

BEE'S KNEES

ALL ABOUT THE BIRDS
AND THE KNEES

Engineered for speed, comfort, and endurance, the Bee's Knees delivers plenty of plush urethane, a grip-enhancing centerset core, and rounded lips for high-mileage performance as well as daily pushing and commuting.

Diameter:	90mm	Core:	high strength urethane
Width:	54mm	Formula:	Happy Thane
Style:	Rounded lips with surface skin	Weight: (per wheel):	10.1 oz / 286 g
Bearing Seat:	Centerset	Duros:	77a, 80a

CAGUAMA

BIG AND BEAUTIFUL

Voluptuous urethane (proportionate in all the right places) for high roll speed, grip, comfort and momentum for commuting, carving, long-distance pushing, pumping, and electric longboards.

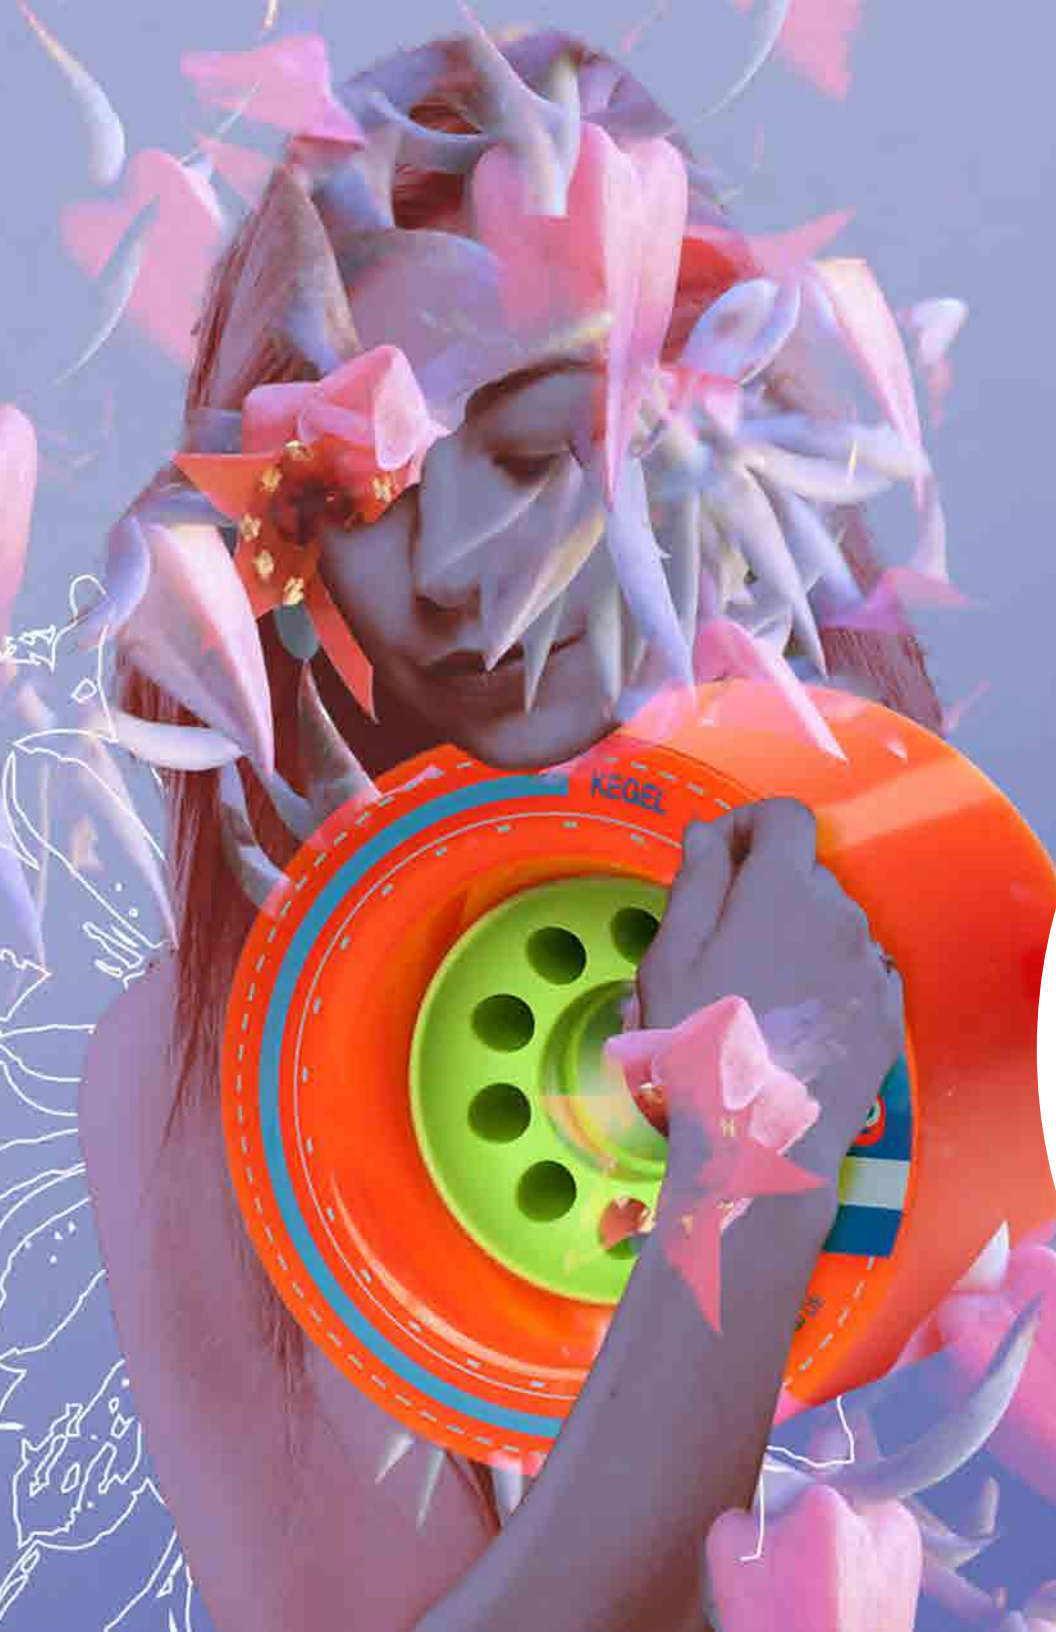

Diameter:	85mm	Core:	high strength urethane
Width:	58.5mm	Formula:	Happy Thane
Style:	Round lips, smooth skin	Weight:	270g
Bearing Seat:	Offset	Duros:	77a, 80a, 83a

MADE IN CALIFORNIA

KEGEL

SUPPLE, MUSCULAR GRIP.

The Orangatang Kegel is your ticket to high-speed steamroller action and the obliteration of a variety of small mammals (not intended use). With a large supportive core and sharp lips, the Kegel is designed to roll fast, wear evenly, and grip the road like a vice.

Diameter:	80mm	Core:	high strength urethane
Width:	56mm	Formula:	Happy Thane
Style:	Sharp lips, smooth skin	Weight:	230g
Bearing Seat:	Offset	Duros:	77a, 80a, 83a

MADE IN CALIFORNIA

IN HEAT

ALWAYS IN THE MOOD...

Classically proportioned and well balanced for hard carving, pumping, and downhill racing. The offset bearing seat and sharp edges ensure high traction, while the thick lips and suggestively rippled walls provide progressive energy return in and out of turns.

Diameter:	75mm	Core:	high strength urethane
Width:	56mm	Formula:	Happy Thane
Style:	Sharp lips, smooth skin	Weight:	220g
Bearing Seat:	Offset	Duros:	77a, 80a, 83a

MADE IN CALIFORNIA

4PRESIDENT

THE CANDIDATE YOU'VE BEEN WAITING FOR.

Whether you're weaving your way through a hairpin-riddled downhill course or a pedestrian-infested urban jungle, the Orangatang 4President is your candidate of choice.

Diameter:	70mm	Core:	high strength urethane
Width:	53mm	Formula:	Happy Thane
Style:	Sharp lips, smooth skin	Weight:	180g
Bearing Seat:	Offset	Duros:	77a, 80a, 83a

MADE IN CALIFORNIA

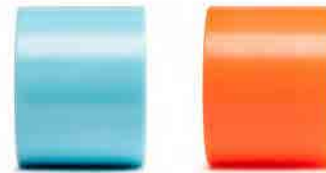

LOVE HANDLES

EXTRA HIPS FOR EXTRA GRIP.

The Orangatang Love Handles: quick and light meet plush and grippy. A traction-focused design in a compact package for agility, acceleration, and control. With a wheel this pumpable, you'll never do crunches again.

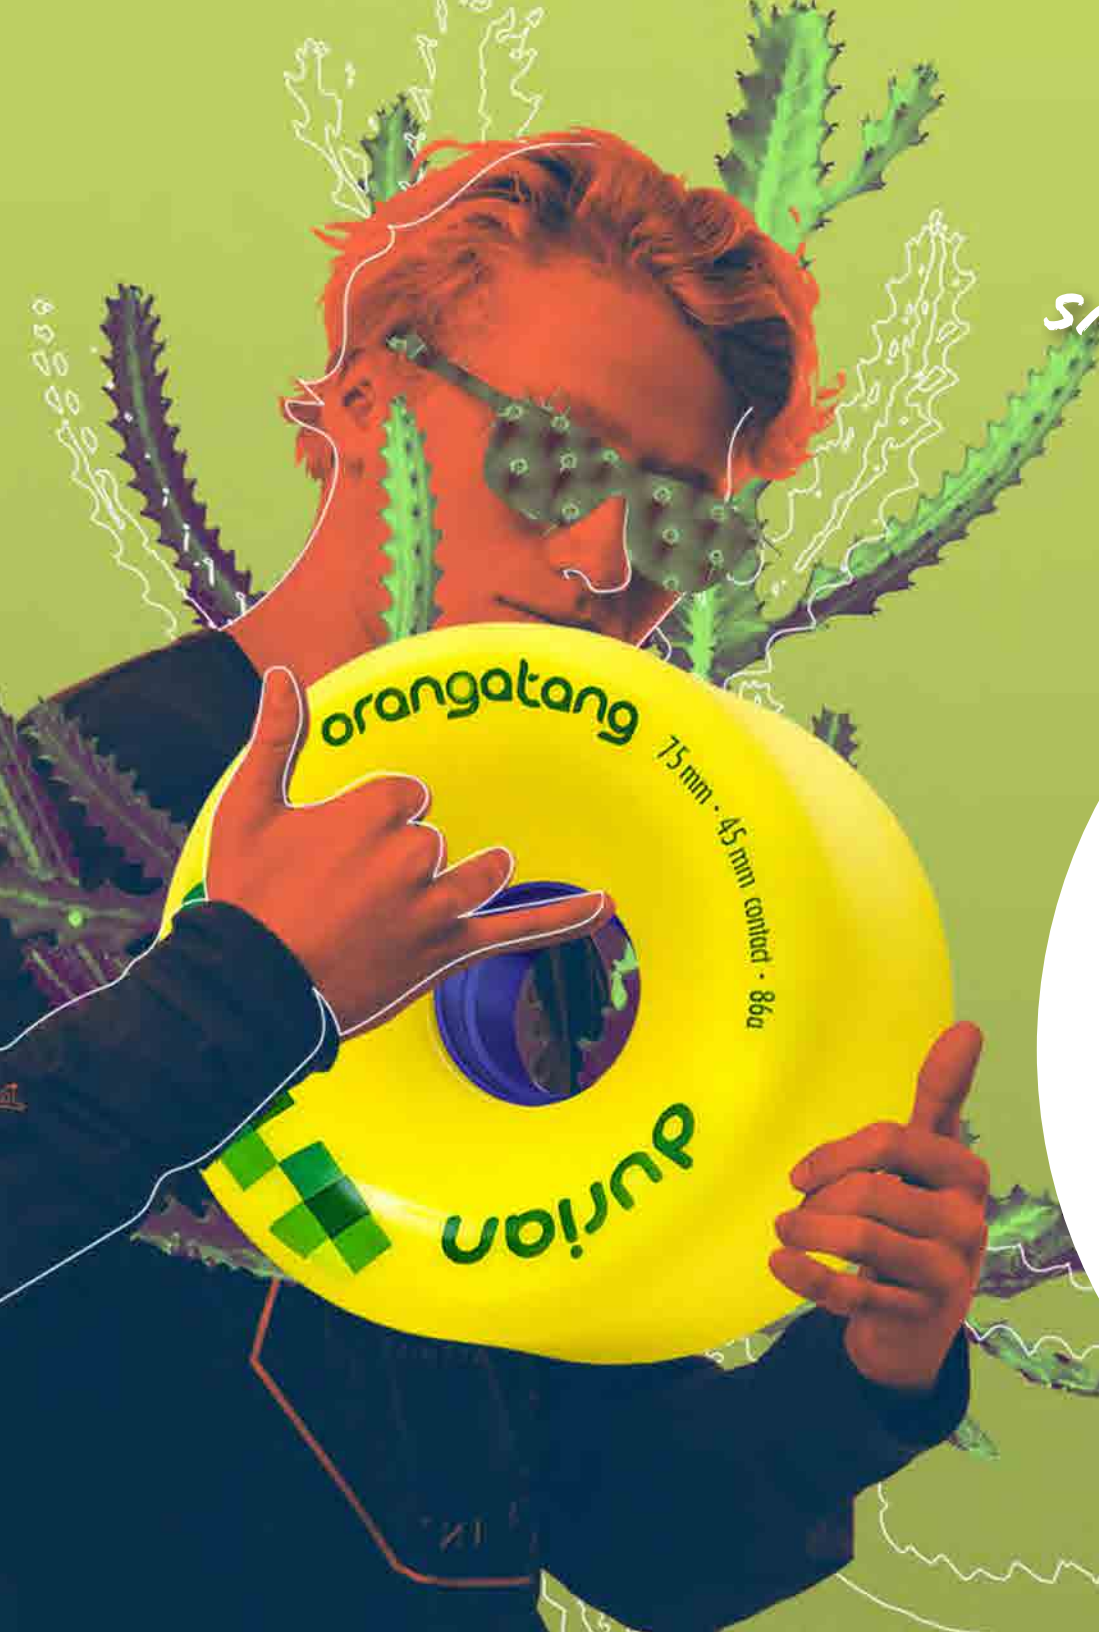

Diameter:	65mm	Core:	high strength urethane
Width:	50mm	Formula:	Happy Thane
Style:	Sharp lips, smooth skin	Weight:	145g
Bearing Seat:	Offset	Duros:	77a, 80a

MADE IN CALIFORNIA

DURIAN

SMELLS LIKE DOWNHILL FREERIDE.

Much like its botanical namesake, the Durian is a big, meaty, and succulent gob of urethane designed to carry you across town to the not-so-local fruit stand or to be smeared liberally over your favorite downhill freeride run.

Diameter:	75mm	Core:	high strength urethane
Width:	52mm	Formula:	Happy Thane
Style:	Round lips, rough skin	Weight:	200g
Bearing Seat:	Offset	Duros:	80a, 83a, 86a

MADE IN CALIFORNIA

BEEFCAKE

MORE MEAT FOR THE STREETS

The Orangatang Beefcake is here to add some bronzed brawn and brains to your highspeed freeride and technical sliding fantasies. The burly shape, stone-ground contact patch, and muscular roundovers provide consistent lip shape for smooth, catch-free slides and effortless slide initiation.

Diameter:	73mm	Core:	high strength urethane
Width:	48mm	Formula:	Happy Thane
Style:	Round lips, rough skin	Weight:	170g
Bearing Seat:	Centerset	Duros:	80a, 83a, 86a

MADE IN CALIFORNIA

STIMULUS

INCENTIVE TO SHRED.

Like a shot of adrenaline for a stale economy of shredding, the Orangatang Stimulus is here to breathe new life into your ride. Equally adept at slides, tricks, dancing and commuting, the Stimulus is the jack of all trades that's captured our hearts year after year.

Diameter:	70mm	Core:	high strength urethane
Width:	49mm	Formula:	Happy Thane
Style:	Round lips, rough skin	Weight:	160g
Bearing Seat:	Offset	Duros:	77a, 80a, 83a, 86a

MADE IN CALIFORNIA

FAT FREE

THE HEALTHIER ALTERNATIVE

If you're ready to lean out your diet, the Orangatang Fat Free is the key to maintaining your board's cardiovascular health and freeride/freestyle figure. A delicacy on the hills or flatlands, the Fat Free does it all without the extra carbs.

Diameter:	65mm	Core:	high strength urethane
Width:	45mm	Formula:	Happy Thane
Style:	Round lips, rough skin	Weight:	130g
Bearing Seat:	Offset	Duros:	77a, 80a, 83a, 86a

MADE IN CALIFORNIA

SKIFF

DO "ROCK THE BOAT"

With a versatile stature, impeccable style, and a ready-to-rock attitude, the skiff is the most interesting wheel in the world. Design for all-terrain use, it is a utilitarian alternative to a traditional street wheel for riding faster, steeper, rougher, and longer.

Diameter:	62mm	Core:	high strength urethane
Width:	35mm	Formula:	Happy Thane
Style:	Round lips, rough skin	Weight:	91g
Bearing Seat:	Centerset	Duros:	80a, 83a, 86a

MADE IN CALIFORNIA

Knuckles

JUICIER BOUNCE, TIGHTER PACKAGE.

Crafted for quick turning response and smooth edge-to-edge transitions, Orangatang Knuckles are the ultimate high-energy bushing upgrade for carving, pumping, dancing, and freestyle longboarding.

Diameter:	0.95" / 24.1mm	Formula:	Randy Thane
Height (top):	0.59" / 15mm	Duros:	87a (soft), 90a (medium)
Height (bottom):	0.67" / 17mm	Soft:	65-190+ lbs (29-86kgs)
		Medium:	130-230+ lbs (59-104kgs)

MADE IN CALIFORNIA

NIPPLES

GIVE 'EM A SQUEEZE.

Extra lively and energetic, these double-barrel Nipples will get you all hot and bothered. With a strong return to center, Nipples are designed to spring you from carve to carve allowing for high speed pumping and dancing when properly stimulated.

Diameter: 1" / 25.4mm
Height (top): 0.56" / 14.2mm
Height (bottom): 0.66" / 15.8mm

Formula: Randy Thane
Duros: soft, medium, hard
