PUSH & PULL

Press the start button and hop on. The patented Push&Pull handlebar gives you full control at the palm of your hands. Simply push for acceleration, then drive with your desired speed and pull for deceleration. The sensor-based, high-tech system takes care of the rest. It's the most carefree and highly intuitive joyride you'll ever experience.

FOLD & GO

Arriving somewhere has never been more convenient. Effortlessly transform your Citybug2 for smooth carrying and storage:

1. Pull lever at the bottom of the handlebar
2. Fold down until it clicks
3. Ready to carry
4. Reverse the process and ride some more

The folded Citybug2 is smaller than a folding bicycle. It's light enough to carry up several flights of stairs, and small enough to fit on any public transportation or even under a shopping cart.

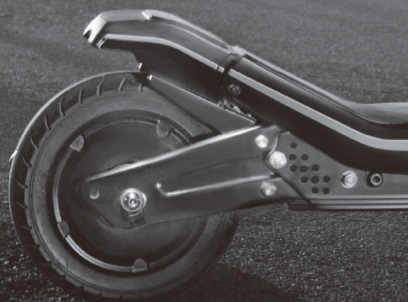

STOP & STAND

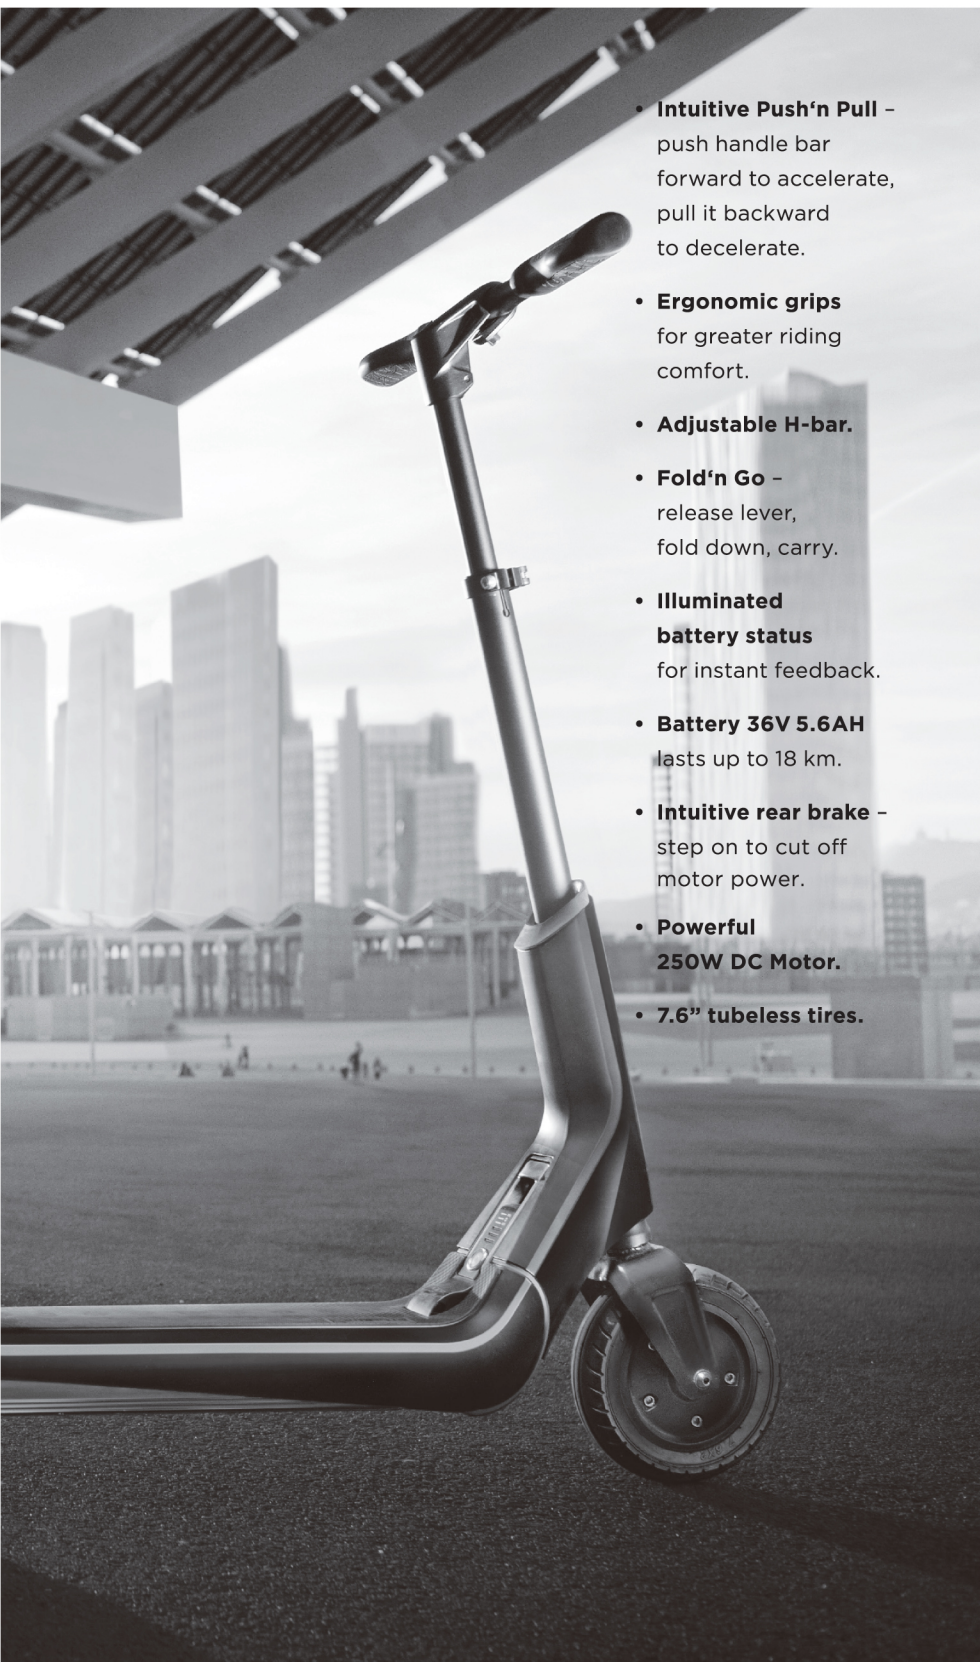

In the end, it's always the little things that make all the difference. When not riding, forget about searching for a wall or a fence to lean your Citybug2. There's no need for a kickstand, Citybug2 stands perfectly on its own. Slightly release the fold lever and pull the handlebar until the bottom of the platform touches the ground. Elegantly parked, Citybug2 is waiting for your next ride.

EXPERIENCE INTUITIVE MOBILITY.

The CITYBUG2 marks the next-gen of urban mobility. Reduced to the max to get you anywhere in the city, it packs a huge fun factor and a petite ecological impact. With innovative functionalities and proven 'no fuss' technology, it complements your car or your daily commute, and lets you enjoy the ride for years to come.

- **Intuitive Push'n Pull** – push handle bar forward to accelerate, pull it backward to decelerate.
- **Ergonomic grips** for greater riding comfort.
- **Adjustable H-bar.**

- **Battery 36V 5.6AH** lasts up to 18 km.
- **Intuitive rear brake** – step on to cut off motor power.
- **Powerful 250W DC Motor.**
- **7.6" tubeless tires.**

CRUISE THE DAY. FEEL THE FREEDOM.

A black and white photograph of a beach promenade. In the foreground, a person stands on the right, looking towards the left. In the middle ground, three people are running towards the left. To their left, a man and a woman are standing near a kick scooter. The background features several palm trees and a clear sky. The overall mood is relaxed and active.

Grab your CITYBUG2 to start the day. Feel the fresh morning breeze, notice the vibrant communities as you flow through the hustle and bustle of the city and pass countless drivers wasting time in traffic. Cruise the streets and ride freely. Sense the pulse of the city. Solo, together with that special someone, or the whole family. Share smiles wherever you go.
