ORANGATANG

RACE AND CARVING

RACE / CARVING

CAGUAMA

Voluptuous urethane (proportionate in all the right places) provides speed, grip, comfort, and momentum. Same lightweight and supportive core as the Kegel for compatibility with many electric skateboards.

DIAMETER: 85mm
CONTACT: 56mm
CORE: offset

FORMULA: happy thane
DUROMETER: 77a / 80a / 83a

KEGEL

Your ticket to high-speed steamroller action and the obliteration of a variety of small mammals.

DIAMETER: 80mm
CONTACT: 56mm
CORE: offset

FORMULA: happy thane
DUROMETER: 77a / 80a / 83a

IN HEAT

A perennial favorite for hard carving, pumping, and downhill racing.

DIAMETER: 75mm
CONTACT: 56mm
CORE: offset

FORMULA: happy thane
DUROMETER: 77a / 80a / 83a / 86a

4 P R E S I D E N T

A mid-sized slalom shape for hard carving, pumping, and technical downhill racing.

DIAMETER: 70mm
CONTACT: 53mm
CORE: offset

FORMULA: happy thane
DUROMETER: 77a / 80a / 83a / 86a

H A R F A N G S

Kegel & In Heat wheels supercharged with a stage 1 tread pattern by Harfang wheels for all your wet-weather needs.

FORMULA: happy thane
KEGELS DUROMETER: 80a / 83a
IN HEATS DUROMETER: 80a

FREERIDE FREESTYLE DANCING

FREERIDE / FREESTYLE / DANCING

DURIAN

The Durian is the largest of the offset freeride wheels, bridging the gap between a full-fledged race wheel (like the In Heat) and a slidier freeride wheel (like The Cage).

DIAMETER: 75mm
CONTACT 45mm
CORE: offset
FORMULA: happy thane
DUROMETER: 80a / 83a / 86a

STIMULUS

The Stimulus is a mid-sized wheel that strikes a balance between a full-fledged race wheel (like the 4President) and a slidier freeride wheel (like The Kilmer).

DIAMETER: 70mm
CONTACT 42mm
CORE: offset
FORMULA: happy thane
DUROMETER: 77a / 80a / 83a / 86a

FAT FREE

The Fat Free is a small and lightweight freeride wheel designed to provide easy slides on smaller boards like minis and double-kicks.

DIAMETER: 65mm
CONTACT: 37mm
CORE: offset
FORMULA: happythane
DUROMETER: 77a / 80a / 83a / 86a

THE KEANU

The Keanu is a compact sliding machine designed for double-kick sliders or riders who prefer a smaller and lighter wheel.

DIAMETER: 66mm
CONTACT: 38mm
CORE: centerset
FORMULA: peachythane
DUROMETER: 80a / 83a / 86a

FREERIDE / FREESTYLE / DANCING

THE KILMER

The Kilmer is the perfect mid-sized centerset wheel for downhill freeride domination.

DIAMETER 69mm
CONTACT: 39.5m
CORE: centerset
FORMULA: peachy thane
DUROMETER: 80a / 83a / 86a

THE CAGE

The largest of the centerset family, The Cage provides roll speed and predictable drifts for high-speed downhill freeriding.

DIAMETER: 73mm
CONTACT: 41.5mm
CORE: centerset
FORMULA: peachy thane
DUROMETER: 80a / 83a / 86a

**FREESTYLE
DANCING
SLIDE
PARK**

FREESTYLE / DANCING / SLIDE / PARK

SKIFF

Designed for all-terrain use, the Skiff is a utilitarian alternative to a traditional street wheel for riding faster, steeper, rougher, and longer.

DIAMETER: 62mm
CONTACT: 25mm
CORE: centerset
FORMULA: happythane
DUROMETER: 80a / 83a / 86a

ONSEN

The Onsens blend the boundaries of traditional skateboarding, park riding, and longboarding. Grippy enough to hold lines in the bowl, but slidey enough for predictable speed checks and recoveries from sketchy scenarios.

DIAMETER: 58mm
CONTACT: 19mm
CORE: centerset
FORMULA: perkythane
DUROMETER: 100a

BUSHINGS

NIPPLE BUSHINGS

Poured in an extra lively and energetic urethane formula, these double barrel bushings will put the bounce back in your turns.

FORMULA: randy thane
DUROMETER: soft / medium / hard

KNUCKLE BUSHINGS

Crafted for quick turning response and smooth edge-to-edge transitions, Orangatang Knuckles are the ultimate high-energy bushing upgrade for carving, pumping, dancing, and freestyle.

FORMULA: randy thane
DUROMETER: soft / medium
